

My name is Andrea Chernin, and I am a Calabasas and Santa Monica based educational therapist in private practice.

I am currently looking for an educational therapist to join my practice in either Calabasas or Santa Monica. This individual may just have completed or is close to completing the Educational Therapy Master's degree or post-MA certificate program. Alternatively, this person can be a seasoned educational therapist who would like to work within a private practice. I am seeking someone passionate, personable, driven, organized, sharp, and excited about the field of educational therapy!

If you would like more information or feel like you are a good fit, please contact:
